

Remedial Class I

Class :III B.Sc

Paper: Modern Database Management Systems

Date: 09-07-2012

Lecturer: M. Murali Mohan Reddy

Topic Covered:

☞ Range of database Applications

☞ Advantages of Database systems

In this class the Range of database applications and advantages of database systems over file processing systems were discussed. The class ended by providing more real time examples.

Remedial Class II

Class :III B.Sc

Paper: Modern Database Management Systems

Date: 05-08-2012

Lecturer: M. Murali Mohan Reddy

Topic Covered:

Enhanced E-R Model
RepresentinSupertype/subtypes
Specifying constraint in supertype/subtype relationships
Business rules revised.

In this class EER model is explained by considering PVFC example. The constraint specification in supertype/subtype relationships was also discussed.

At the end of the class students asked to draw some example EE-R diagrams which includes the above constraints.

Remedial Class III

Class :III B.Sc

Paper: Modern Database Management Systems

Date: 18-06-2012

Lecturer: K. Devaki Mani

Topic Covered:

Normalization

The Basic normal forms

Boyce code normal form

Denormalization

In this class the introduction to normalization, different forms of normalization and denormalization was discussed and giving assignment to students ends the class.

Paper: Object Oriented Programming in JAVA

Date: 13-06-2012

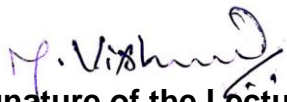

Lecturer: M.Vishnuvardan Reddy

Topic Covered Object oriented programming concepts

The topic covers the basic difference between the structured language and object oriented. OOPs concepts like classes, objects, data encapsulation, data abstraction, inheritance, polymorphism, dynamic binding, message passing were explained .

The students were asked to rewrite the basic c programs in java using the classes. They were asked to write how the above concepts were implemented in their programs.
